MOMENTUM CHROME EXTENSION

1. INTRODUCTION

1.1. Purpose

Momentum is a to-do-list extension that can be used with the Google Chrome browser; it replaces the New Tab page with a personal dashboard that features a to-do list, weather, and inspirational quotes that change daily. It is designed for people who spend a lot of time in their browser opening new tabs.

2. PROBLEM

For some people, it may be difficult to be productive constantly and to stay focused on work and with homework. With the capabilities that Internet browsers have with surfing the Web, it can lead to major distractions while using Chrome to do productive work.
